## HOW TO CITE RULES AND RSMO

### RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

### ***Code and Register on the Internet***

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is [sos.mo.gov/adrules/csr/csr](http://sos.mo.gov/adrules/csr/csr)

The *Register* address is [sos.mo.gov/adrules/moreg/moreg](http://sos.mo.gov/adrules/moreg/moreg)

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

**U**nder this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

**E**ntirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

**A**n important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

**I**f an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

**A**n agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

**I**f an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

**(3) Agreements and Conditions.**

(A) The permittee agrees to the following conditions when a permit is issued:

1. The permittee named therein agrees to assume full responsibility for injury to persons or damage to public or private property, including the state highway system and its facilities, caused by the movement of the vehicle or its load under the special permit

involved;

2. The permittee agrees to hold harmless the Missouri Highways and Transportation Commission, the Missouri Department of Transportation, the Missouri State Highway Patrol, their agents, servants, and employees, from any and all claims, judgments, damages, or expenses of any kind on the part of the applicant, permittee, or any person, firm, or corporation having an interest in either the vehicle, the load, or other property involved in the movement over the route prescribed in said permit;

3. The permittee, as a condition to the issuance of a special permit, agrees to indemnify the Missouri Highways and Transportation Commission, the Missouri Department of Transportation, the Missouri State Highway Patrol, their agents, servants, or employees, for any sums which it, its agents, servants, or employees are or may be required to expend in defense of any claims or actions for damages and to indemnify the Missouri Highways and Transportation Commission, the Missouri Department of Transportation, the Missouri State Highway Patrol, their agents, servants, or employees, arising out of the movement, under this special permit, of a vehicle or load over the route prescribed by the Missouri Department of Transportation, its agents, servants, or employees;

4. The permittee will cause the operators of all motor vehicles involved in the movement to take all necessary precautions to avoid hazards existing along the prescribed route, such as, but not limited to, construction projects, physical restrictions, or conditions which will not permit the movement of the vehicle and its load without detriment to the state highway or its drainage structure, signs, guardrails, signals, shoulders, pavement, right-of-way, or any other facility;

5. The permittee or their representative must physically drive the proposed route to be used prior to issuance and attest that all turns, curves, etc. can be safely negotiated if the load is greater than one hundred fifty feet (150') long. If the load encounters problems negotiating such route during transportation, the company will be charged new permit fees (including a bridge study analysis for superloads). In addition, penalties may be assessed and future permit applications may be denied;

6. Should the permittee or the permittee's officers, agents, employees, or operators encounter a condition on the route prescribed not contemplated by the permit, or signs or markings indicating an emergency condition creating a reasonable doubt as to the continuance of the trip, the permittee, officer, agent, employee, or operator of the vehicle shall immediately notify the appropriate official or employee of Motor Carrier Services Division of the Missouri Department of Transportation for a suggested course of action. In any event, departure from a prescribed route, except by specific authorization of Motor Carrier Services Division, renders the permit void;

8. Any permit used for a movement other than that for which granted, or any permit that has been altered, is void in its entirety and the movement involved will be in violation of the law, as though such permit had never been granted;

9. Permits voided by a violation shall be surrendered to any law enforcement officer or to any employee of the Missouri Department of Transportation;

10. A new permit and required fees covering the remainder of the movement will not be issued until all charges arising out of the violation have been satisfied and the routing or movement modified to meet the regulations established herein;

11. Permits are issued by authority of law only when the public safety or public interest justifies their issuance. Any misrepresentation in the application or violation of the terms of the permit may result in denial of future applications of the violator;

12. Permission is granted only for dimensions and up to the

weight, as specified, and compliance in all other respects is required with Chapters 260, 301 through 307, 390, and 622 of the *Missouri Revised Statutes* as amended, all other applicable state and federal laws and rules and regulations of state and federal regulatory bodies; and

13. All permittees are responsible for the accuracy of their permits and shall notify the Missouri Department of Transportation, Motor Carrier Services Division of any inaccuracies **to be corrected** before movement commences.

(B) In addition to these agreements and conditions, the following will apply:

1. All violations or misrepresentations will be recorded and the permittee will be notified in writing that future violations may result in a suspension or revocation of privileges;

2. Flagrant or repeated violations of permit restrictions and/or traffic safety laws in combination thereof are not in the interest of public safety and the permittee will be advised in writing~~/,~~ if his/her record is such that future permits should not be granted in the opinion of the Missouri Department of Transportation. A suspension of such privilege shall last for two (2) weeks and a revocation of such privilege for one (1) year;

3. Suspensions, revocations, and re-instatements may be modified or rescinded by the Motor Carrier Services' director or his/her representative, and their decision shall be final.

<b>Missouri Department of Transportation</b>	<b>\$11,142.00</b>

**III. WORKSHEET**

Under the proposed amended rulemaking, a carrier may obtain an annual oversize/overweight (**OS/OW**) blanket permit for cranes to transport on Missouri highways using three- or four-axle configurations, instead of purchasing individual OS/OW permits for each movement. The proposed amended rule would establish the costs for each blanket permit to be \$300, which matches the cost for blanket permits currently available for other specialized equipment (i.e., concrete pump truck or well-drillers' equipment).

In 2019, under the current administrative rule, 414 single-trip OS/OW permits were issued to transport cranes using 35 different 3- or 4-axle configurations. The cranes were owned by 22 individual companies, who, in total, paid \$15,714 in permit fees.

Of the 35 cranes permitted, 13 units exceeded \$300 in permit fees for a movement on Missouri highways, which resulted in \$15,042 in fees paid for these movements. The Department expects that upon the effective date of the amended rulemaking that these companies will instead choose to purchase a \$300 blanket permit to be able to move their cranes on Missouri highways for an entire year, which would result in total costs of only \$3,900.

As a result, the Department assumes a loss of \$11,142 ( $\$15,042 - \$3,900 = \$11,142$ ) under the proposed amended rulemaking. Please see the Worksheet below:

	No. of \$300+ Units	Permit Fees - Single Trip	Permit Fees - Blanket	Difference*
Budrovich permitted 4 cranes - 1 crane exceeded \$300	1	\$815	\$300	\$515

Jay White permitted 1 crane that exceeded \$300	1	\$490	\$300	\$190

#### IV. ASSUMPTIONS

Section 304.180, RSMo establishes weight limits for transportation on the public highways of this state. It was amended by General Assembly action in 2018 to allow the Commission to issue annual permits for the transportation of cranes and set fees for such permits.

Currently, an OS/OW permit must be obtained for each individual trip when an OS/OW crane moves on Missouri highways. The draft rule includes a provision for carriers to obtain an annual OS/OW blanket permit for cranes with three or four axles. The cost proposed for each blanket permit is \$300. This cost matches the cost for blanket permits currently available for other specialized equipment. A \$300 fee was determined to be equitable.

It is difficult to predict the exact number of blanket OS/OW permits that carriers will obtain. The blanket permit is an option, not a requirement. If a carrier finds that the cost of single trip permit is more than the cost of the blanket permit, they are likely to request the blanket permit option.

Based on 2019 orders of single trip permits for 3- and 4-axle cranes, MoDOT determined that the total estimated revenue loss is \$11,142.

Gross revenue loss of \$15,042 is likely to be offset by the collection of \$3,900 in blanket permit fees. The exact revenue and gain/loss will depend on the number of carriers who take the blanket permit option and the number of individual cranes for which they purchase a blanket permit.

It is likely that annual blankets will be purchased by companies that had a crane/cranes that exceeded \$300 in OS/OW permit fees. Holding a blanket permit eases the permitting

task and likely saves customer labor costs by eliminating the need to contact MoDOT's Motor Carrier Services Division and provide route information for every crane movement. The precise number of blanket permits that might be purchased for this purpose is unknown.

SUMMARY OF COMMENTS: Three (3) comments were received.

COMMENT #1: Jeff Grosvenor, Missouri Association of Rehabilitation Facilities (MARF), commented that most agency staff are currently dealing with COVID-19 issues and have staff working remotely or in different capacities to assist in taking care of individuals. Many agencies will not be able to dedicate staff resources to conduct a review of twelve (12) draft *Code of State Regulations* (CSRs) during this unprecedented time. Most agencies are busy trying to keep up on daily information including:

- a. Center for Disease Control COVID-19 updates;
- b. DMH COVID-19 updates;
- c. Provider Relief Fund application information;
- d. Payroll Protection Program;
- e. Other CAREs Act resources;
- f. Local community COVID-19 regulations; and
- g. Other necessary information.

Agencies are spending a lot of staff resources to make sure they comply with all the guidance being provided during the COVID-19 pandemic. The timing of these draft CSRs is probably the worst possible time to expect meaningful input from stakeholders.

RESPONSE: There will always be factors outside of our control that disrupt the department's service delivery system. Department staff are aware of the impact the COVID-19 pandemic is having on individuals we serve, as well as organizations that deliver services. Department staff have eliminated barriers and waived various regulations to ensure minimal service disruption and to ease staff workloads. This assistance will continue throughout the duration of the pandemic. As stipulated in section 536.175, RSMo, the department is under a five- (5-) year rolling review of all regulations published in the *Code of State Regulations* and will continue the review process as required in state statute. As is customary when the department proposes new regulations or amendments, draft language is disseminated to providers and other stakeholders for review and comments prior to official filing of the regulations with the secretary of state. The proposed licensing rules and amendments were posted to the DMH website for a thirty- (30-) day comment period in April, 2019 and June, 2019, allowing ample time for providers to review the draft regulations in their entirety and submit questions and comments to the department. No action will be taken.

COMMENT #2: Jeff Grosvenor, Missouri Association of Rehabilitation Facilities (MARF), commented that a number of these regulations require that residential and day programs comply with certain newer standards including, but not limited to, the 2017 NFPA Standards for Ventilation Control and Fire Protection of Commercial Cooking Operations, the 2017 National Electrical Code, the 2018

National Standard Plumbing Code, the 2018 regulations of the NFPA Life Safety Code 101, and the 2019 NFPA Standards for Installation of Sprinkler Systems. There are other specific requirements related to things like ceiling height, window sizes, floor levels, etc. In addition, modular units are no longer permitted. There is nothing in the proposed regulations indicating that these regulations will only be applied prospectively to new programs. From the plain language of the regulation, they could potentially be applied to all providers, including existing providers. It is our understanding these new regulations impacting current facilities will be applied for new development or any new renovations of current facilities and will not be applied to all current settings. Is that correct?

If that is not correct and current facilities are now required to comply with all the new requirements, we recommend the Department revise their cost estimate to private entities which states "is not more than \$500 in the aggregate."

We recommend DMH consider adding specific language to make clear that the standards apply only to new providers as of the effective date of the rule. If it is DMH's intent to impose the new standards on existing providers, existing providers must be provided additional resources and a grace period in which to comply.

RESPONSE: These regulations do not apply to organizations that provide services as part of the Division of Developmental Disabilities (DD) Medicaid waiver; those programs are required to meet department certification standards and are not subject to these licensing regulations. With regard to the comment that clarification be added to indicate the standards apply only to new providers as of the effective date of the rule, the department believes the rule contains adequate language in 9 CSR 40-1.055 Licensing Procedures, section (6). Currently licensed organizations either already meet the regulations as specified in the proposed rule or have been granted an exception by the department and will not be subject to additional costs in order to comply with the new regulations. No action will be taken.

COMMENT #3: Jeff Grosvenor, Missouri Association of Rehabilitation Facilities (MARF), commented that MARF members are concerned these draft CSRs may reference the current DMH contract language that needs to be amended. MARF has been working with DMH contract staff and the Division of Developmental Disabilities staff to have several areas of the contract amended to accurately reflect the contractual agreement between DD community providers and DMH.

RESPONSE: These regulations do not apply to organizations that provide services as part of the Division of Developmental Disabilities (DD) Medicaid waiver; those programs are required to meet department certification standards and are not subject to these licensing regulations. No action will be taken.
